Design

In the Valley

Pacifica Restaurant

R+B assisted Aspen restaurant, Pacifica, in preparation for the summer season by designing a dynamic, yet intimate outdoor dining area for the popular seafood eatery. R+B designers sourced the Goliath of all outdoor umbrellas for the patio. The 16' x 16' umbrella blankets and protects Pacifica diners and requires 900 pounds to hold its base down. The bright blue matches the Pacifica logo and branding as well as creates a highly-visible landmark for people searching for the ideal outdoor dining spot. The umbrella also features integrated heaters and lighting. In addition, R+B designed and installed a new hostess stand, perimeter fencing and exterior lighting. Be sure to visit Pacifica and enjoy a wonderful summer dining experience.

Pacifica Restaurant – Outdoor Patio

Dennis Basso

R+B served as the Architect of Record for the new Dennis Basso store located in The Little Nell in Aspen, Colorado. As Architect of Record, R+B prepared existing CAD drawings and worked closely with the design architect John Lindell, whom was the architect for Dennis Basso's retail store in New York City. R+B on-site construction coordination and contractor consultation allowed the Basso store to open on time for the summer season. Please be sure to stop by and visit the new store.

Hilton Doubletree Missoula Montana Renovation

Recently, R+B was awarded a contract from Hilton Worldwide for renovations to the Hilton Doubletree Hotel in Missoula, Montana. Design has just begun on the conference rooms and common areas. This is our first project in Montana. R+B is looking forward to providing a fresh aesthetic that compliments the mountain town's charm and amazing riverbank location along the Clark Fork River. The renovation project will be completed in early 2011.
